Issue No. 30

September 3rd

Project Updates

Progress continues!

- 1st St NE was paved today, and patches in other areas completed as well.
- It is anticipated that **1st Street NE will be open in time for the Madelia Elementary School's first day of school on September 10, 2026.**
- The **2nd St intersection** is anticipated to be **open by the end of the day tomorrow, Friday 9/4.**

Please remember that the project will not be completely finished when the street(s) reopens. Construction crews and equipment will remain in the area as additional work is completed.

With school beginning, we ask parents and guardians to please talk with children about construction-zone safety. Students walking or biking to and from school should use extra caution around construction areas, equipment, and unfinished areas.

- **Grass seeding along the boulevards;** we are unsure on this timeline. This is just a reminder to property owners: to help the grass grow and establish properly, we are asking residents to assist by watering the seeded areas as needed. There will be no adjustment to water bills for watering related to this project, as the project is not being assessed to homeowners.

Garbage & Recycling:

- Be sure to **label your carts with your address**
- Set carts out as usual on collection days
- The crews will move carts to the collection area and return them.

Don't Miss Out on Updates!
